Surplus Materials Depot at R.C. Port Planned by Board

A plan whereby the Federal Public Housing Administration will take over a 20-acre plot at the Port of Redwood City for use as a surplus building materials depot was announced Monday night by Judge Edmond Scott, port commission chairman.

Judge Scott said that the housing administration plans to collect surplus building materials from all governmental agencies and pool them at Redwood City. From the depot, he continued, they will be shipped to administration projects in the five western states. All administration projects are aimed at providing housing for veterans.

A. A. Moran, port manager, said that the deal would benefit the city "even more" than a lease by the navy during the war. He said that the project would provide a payroll of between \$100,000 and \$150,000 which would go largely to Redwood City laborers. He emphasized that this was a civilian project of the government.

John W. Collins, FPHA acquiring agent in San Francisco, said his office had approved the Redwood City site and was now waiting approval from higher headquarters in Washington before papers were finally signed.

The administration plans to ship surplus army equipment from all parts of the South Pacific to Redwood City and to two other depots in the five western states, he added. The other depots will be situated at Pomona and Salt Lake City.

Moran said the deal called for a minimum lease of six months, but that administration spokesmen had indicated the 20-acre plot will be used for a much longer period.

The administration plans to construct three or four small metal warehouses on the plot to store perishable materials, the judge said. He pointed out that besides the money the port will receive for rent, it will also receive funds for handling materials at its wharf.

Ravenswood Seeks School Aide Bids

Applications for superintendent of Ravenswood schools and for principal of each of the two schools in the district are being received by the Ravenswood school board, according to Mrs. Paul Boyer, clerk of the board.

Mrs. Boyer also announced that the board is preparing teachers' contracts for the next fiscal year, and that they will be presented to the teachers concerned for signature soon.

Any person who has administrative credentials in addition to teachers' credentials and who wishes to apply for the position of principal of either the Ravenswood or Willow Schools is invited to present those credentials along with the application to Mrs. Boyer, 317 Pope St., North Palo Alto.

Each of the schools in the Ravenswood district now has a vice-principal who teaches at the same time. It is planned to continue the present teacher-principal plan, but to give more administrative control to the principals than they now have, according to Mrs. Boyer.

AIR COUNTY JOBS

Emergen Smith, chairman of the civil service committee of the San Mateo County Employees' Assn. Monday night reported to the employees at a regular meeting that the committee had conferred with the civil service commission and ascertained that the commission is adjusting complaints and that it is making a survey of all clerks' jobs in the courthouse. The association still is not satisfied, however. Miss Helen Van Winkle, secretary of the employees' group said.

Supervisors Begin Study Of New Budget

San Mateo County Board of Supervisors Tuesday started a study of the county budget for the fiscal year 1946-47.

The supervisors studied the assessor's budget this morning but had not completed the study when they turned to routine matters presented by County Clerk William H. Augustus. They were to continue their budget study this afternoon.

The board decided this morning to send a letter to Congressman Jack Z. Anderson backing Joint Hwy. Dist. 10 and the City of San Bruno in their request for assistance from the government in the reconstruction and widening of Sneath Ln.

County Engineer M. A. Grant, who recommended the letter be sent to Anderson, pointed out the government cemetery property has a frontage on Sneath Ln. from El Camino Real to Junipero Serra Blvd., and that although the road lies wholly in the limits of San Bruno, most of the traffic does not come from San Bruno but much of the traffic is because of the cemetery.

The board referred a letter to County Executive Frederick Peterson from Harry A. Droeger, 1909 Palm Ave., San Mateo, a South Pacific veteran, who complained that he went to the courthouse yesterday to make application for temporary housing and that Peterson was not in his office during the day and that there was no one to help him or to give him an application form. Droeger, who has a wife and two daughters, declared the housing problem is serious — not a joking matter.

Bldg. Insp. A. W. Russell recommended that a county-owned building at San Mateo Point which was used as a skating rink before the war and which later was used as an industrial plant be torn down. Some of the supervisors expressed the belief this morning that bids should be called for moving the building. No action was taken.

Dibble Homes For Vets Due

Seven wards at Dibble General Hospital are scheduled for conversion into apartments for married student-veterans at Stanford University, Col. Paul H. Streit announced this week.

The Dibble commanding officer said that he had declared the wards surplus to the army's needs and that the Federal Public Housing Administration had first call on all army surplus housing units and materials.

Neither the colonel or John W. Collins, acquiring agent at FPHA headquarters in San Francisco, knew today how far paper had traveled which will make the transfer official. The agency has approved the acquisition and is waiting word from army Washington headquarters which will release the wards.

Colonel Streit said that an army engineer had estimated that six apartments could be installed in each ward. Each apartment would contain a living room, kitchen, bath and bedroom. The FPHA, he continued, is working on other plans which will make it possible to install seven apartments in each ward.

The FPHA spokesman said that the transfer would not be made unless the army releases the wards in time for conversion for students and then would construct only temporary housing units. They will be adequate to house married students, however.

Menlo Park Property Owners Air Proposed Assessments

Menlo Park property owners involved in the proposed Santa Cruz Ave. improvement area had a chance this week to air their grievances in the informal discussion following the regular meeting of the city council in the city hall.

Many of the owners among the 25 present voiced their complaints about assessment inequities to the city council and several adjustments were made.

The individual assessments were assigned by City Engineer Edward Smith according to the benefit each property owner would receive from the proposed improvements.

The following scale is being used, based on a mean of \$28.64 per front foot:

- \$38.66 on west side of Santa Cruz Ave.
- \$10.02 on east side of Santa Cruz Ave.
- \$21.48 on El Camino Real.
- \$21.48 on east side of Oak Grove Ave.
- \$14.32 on north side of Chestnut St.
- \$14.32 on south side of Chestnut St.
- \$12.32 on west side of Santa Cruz Ave.

The assessment for the second block of Oak Grove Ave. on the east side was cut down from \$14.32 for front foot to \$10.02.

S/Sgt. McCowan Heads for Home

S/Sgt. Leo L. McCowan, son of Mr. and Mrs. William A. McCowan of 3187 Page St., arrived in New York this week on the Central Falls Victory.

Sergeant McCowan, who was on the Sunnyvale police force before he entered the army, moved here with his parents seven years ago from Chowchilla (Madera Co.). His wife, Shirley, and their 4-year-old daughter, Sandra Louise, are at present living with her parents, Mr. and Mrs. Ray Balmat of Chowchilla.

Mrs. Herbert A. (Lorene) Harvey, Sergeant McCowan's sister, whose husband is in the occupation forces in Germany, said today that her brother, Leo, would return to the Sunnyvale police force "if he doesn't decide to re-enlist."

Mrs. Harvey and her 4-year-old daughter, Lynda Lee, are staying with her parents here.

Sergeant McCowan has two other sisters, Mrs. Cyrus (Eulah) Barry is living with her husband, an electrician, in Palo Alto. Mrs. Thomas (Kenneth) (Beulah) Day is in Bakersfield where her husband is a master sergeant at nearby Minter Field.

The 6-foot-4-inch Sergeant McCowan was in the European Theater 16 months and earned three battle stars.

Robert Schoop Wins Discharge

Robert W. Schoop, son of William P. Schoop of 1649 Brewster Ave., received his honorable discharge last Saturday at the Naval Personnel Separation Center at Shomaker and is back home with his parents.

Schoop, who was a torpedoman third class, enlisted for submarine duty in the navy shortly after his graduation from Sequoia High School in 1943. His overseas assignment as a member of submarine crew took him to all the "headline ports" of the Pacific Theater.

He is planning to continue his education in business administration in the Fall.

Simplifies meal planning.....saves money

In new, modern home kitchens, fruits, vegetables and meats will be kept ready to serve on a moment's notice from a well-stocked home freezer and refrigerator.

Out-of-season berries, sun-ripened fruits with all the goodness frozen-in and game, fowl, fish, chops and steaks will be waiting to give variety to meal planning. Cooked foods, too—rolls, pie, hash or stew that only require quick reheating. You buy these at seasonal low prices to save money in later months.

Yes, your new home kitchen will need plenty of frozen food storage capacity and food preserving refrigeration. Plan to have both as soon as new models are available.

The new Home Freezers will be available in either the upright type to match your refrigerator or the chest type. Either style will provide frozen food storage space for at least a month's supply for the average family.

San Mateo Loses Its Golf Course

San Mateo has lost its municipal golf course.

A. J. McBoyle, San Francisco realtor who holds power of attorney for the Bowie estate, announced today that the 106-acre tract will be sold for subdivision purposes.

He said it probably will be 60 days before the sale is completed and announcement of the purchaser is made, but meantime he informed a group of San Mateans who hoped to form a private holding company to buy the land for resale to the city of San Mateo that the sale would not be made to them.

"It hasn't been sold yet, but as far as continuing as a golf course—that is out," McBoyle said, "the estate definitely will be sold as a subdivision."

The committee of San Mateans had expressed willingness to pay as much as \$100,000 for the property, but said the price had been increasing steadily.

Laborer Killed By Speeding Train

Jacoby Alexander, 23, Negro laborer, met instant death Saturday afternoon beneath the wheels of a Southern Pacific passenger train immediately north of the San Bruno station.

Alexander and other members of the section crew stepped from the tracks as the speeding train approached. Then, before the eyes of his companions Alexander slipped on some gravel and fell under the train.

The train continued to Millbrae where the engineer telephoned San Bruno railroad officials that he believed he had struck someone. Meanwhile, the fellow workers carried the body to the San Bruno station where a physician said death had been instantaneous.

The remains will be sent to Dallas, Tex., tomorrow from the Nieri Funeral Home in San Bruno. The decedent was recently honorably discharged from the army after two years of service. He had been employed by the S.P. three days ago.

S.C. Boy Scouts Plan Paper Drive

San Carlos Boy Scouts will begin early Saturday morning collecting old newspapers, magazines and cardboard boxes in a paper drive that will last until Sunday night.

Residents here can contribute to the drive by taking their old papers and boxes, which should be broken so they will lie flat, to Main's Service Station at Brewster Ave. and El Camino Real. Those who cannot bring their papers may telephone 1674 and a truck will be sent for them.

Search for Thora Starts Anew

Chief Dep. Sheriff Walter Moore said Franklin Hognire, 37, junk dealer who last week found the body of Dorothy Jones, Negress, assertedly killed by Thomas H. McMonigle, now in San Quentin death row for the murder of Thora Chamberlain, 15, of Campbell, and a deputy sheriff were searching at Devil's Slide today for the body of the Chamberlain girl.

Moore said the search was delayed until those taking part in the search at the dangerous cliff were covered by insurance.

Group Elects Belmont Man

Dr. Harry C. Warren of Belmont was elected vice president of the California Tuberculosis and Health Assn. this week at the opening meeting of a two-day conference in San Francisco.

Dr. Warren has been a member of the board of directors of the group during the past year, and is one of the representatives of the San Mateo County Tuberculosis and Health Assn. attending the conference.

Menlo Fire District Seeks More Men

Two men are needed for the Menlo Park Fire Dist. Fire Dept., according to Thomas C. Cuff, fire chief.

All men between the ages of 18 and 30 are eligible; veterans of World War II are preferred, he said. Applications should be made at the fire station in Menlo Park before Apr. 30.

How to prepare old-time meat favorites

There's nothing like one of these old-time meat favorites for satisfying hearty appetites and bringing words of praise to the cook. Most of them are easy on the budget, too.

SWISS STEAK
This perennial favorite always goes over with the men in the family. Although round steak is most frequently used, chuck or sirloin tip is equally good swissed.

Allowing about 1 1/2 pound for each person, have steak cut 1 1/2 to 2 inches thick. Sprinkle with salt and pepper and roll in flour. Pound with edge of plate. Brown in melted shortening in a Dutch oven or heavy frying pan. Add 2 cups of water, cover, and cook slowly for 2 1/2 hours or until meat is tender. Add more water, if necessary, to make the desired amount of gravy. Serve with fluffy mashed potatoes.

LAMB SHOULDER POT ROAST
About a half hour before the pot roast is done put in peeled potatoes, carrots and onions and you'll have a complete meal. Sprinkle a 3-pound lamb shoulder with salt and pepper and roll in flour. Brown in melted shortening in a Dutch oven or deep kettle with tight fitting lid. Add 2 cups of hot water, a medium-sized onion thinly sliced and a bay leaf. Cover and cook slowly about 3 hours or until tender. Add more water if necessary. Serves 6 to 8.

BRAISED SHORT RIBS
Here's another old-timer that's been a favorite for generations. Try serving with home-made noodles.

Have 3 pounds of short ribs cut in serving size pieces. Brown slowly, turning often, in a small amount of shortening in a heavy kettle with tight fitting cover. Add a cup of hot water, salt and pepper. Cover and cook slowly until meat is tender, about 1 1/2 to 2 hours. Serve the liquid as gravy or add more water and thicken with flour blended to a smooth paste with cold water. Serves 6.

STUFFED BEEF OR VEAL STEAK
Thinly sliced beef or veal round or a flank steak are all good served this way. Score or pound a thin slice of round steak, sprinkle with salt and pepper and spread evenly with your favorite stuffing. (Bread stuffing well-seasoned with celery and parsley is especially good.) Roll lengthwise; tie securely with string or skewer, being sure to fasten ends. Brown in melted shortening in a Dutch oven or deep kettle with tight fitting cover. Add about 2 cups of hot water, cover and cook slowly until tender, or about 2 1/2 hours. Cut in slices to serve. Serves 6.

Wendell H. Marlowe Honored By Posthumous Medal Award

A posthumous award of the Air Medal with several Oak Leaf Clusters was made this week to the late 1st Lt. Wendell H. Marlowe, son of Mr. and Mrs. Frank Marlowe of Redwood City, at Hamilton Field, Marin County, during military ceremonies.

The dead army flier's father, Frank Marlowe, is chief criminal investigator in the San Mateo County district attorney's office.

Mr. and Mrs. Marlowe were present at Hamilton Field to receive the high award for their son, who was a graduate of Palo Alto High School and who distinguished himself in air combat against the enemy in the European war theater.

Young Marlowe lost his life while piloting a P-51 fighter plane over Germany on Christmas Eve of 1944 during an air raid. He was reported missing over Bonn, Germany. A year later the War Dept. gave presumptive confirmation of his death.

He was a member of the Eighth Army Air Force, 479th Fighter Squadron, 434th Fighting Group. His story is a dramatic one. Records show that after young Marlowe had successfully passed examinations to enter the Army Air Corps, the quota for air cadets was closed. However, the youth went before his selective service board and asked to be inducted. He was inducted Feb. 10, 1943.

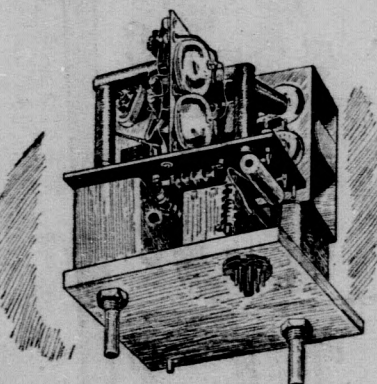

LT. WENDELL MARLOWE

After induction, however, he realized his wish to be an army flier for he was accepted as an air cadet. Feb. 10, 1944, Marlowe was commissioned a second lieutenant at Napier Field, Dothan, Ala. He went overseas with the Eighth Army Air Force shortly thereafter. Marlowe's posthumous war decoration adds to the already outstanding war service record of the district attorney's office personnel.

New vacuum tube equipment will speed long distance calls

Long distance expansion program in full swing

This is just part of our unprecedented long distance expansion program now under way.

For the phenomenal development in this part of the country has resulted in a tremendously increased number of toll and long distance calls. (In 1945, for example, we handled nearly a million a day.) But we're working full speed ahead to install the additional facilities we need to provide a better and faster long distance service than ever before.

Pair Found Dead On Skyline Blvd.

Bodies of a San Francisco man and his wife were found slumped in the back seat of their two-door sedan on Skyline Blvd. just inside the San Mateo County line Monday morning in what officers believe was a suicide pact.

Chief Dep. Sheriff Walter Moore said it appeared Melvin W. Mueller, 31, 649 Chenery St., San Francisco, civilian employee of the navy, had shot his wife, Marie, 23, with a .22-caliber rifle and then turned the gun on himself. Moore said it looked like a suicide pact.

No suicide notes were found. The couple was seen alive at 11 o'clock Sunday night by Mrs. Mueller's mother.

Only two bullets had been fired. One struck Mrs. Mueller below the left ear and the other struck Mueller above the left ear.

A rubber hose was attached from the exhaust pipe into the car and some signs of carbon monoxide were found.

Mueller's car was parked beside some shrubbery south of the Olympic Club on the ocean side of Skyline Blvd. The bodies were discovered by a passerby.

Moore said he had been told Mrs. Mueller had a child by a previous marriage.

The murder-suicide was first investigated by San Francisco police until it was discovered the bodies were just inside of San Mateo County. Moore and Dep. Sheriff Milton Minehan then took over the investigation.

This was the second murder-suicide in this county in less than a week. Bodies of Al Meier, 80, Bay Rd., Menlo Park, and Jessie Duncan, 52, Forrest Auto Court, South San Francisco, were found at the auto court last Wednesday. Meier's body was found slumped in a chair with a bullet hole through his heart.

Two bullet holes were found in the woman's heart. Meier left a note claiming that his lady friend had taken his \$1000 and left him "in the lurch."

Two no-damage blazes officially inaugurated the summer grass fire season for the Redwood City Fire Department yesterday.

At 1:05 p.m. firemen were called to extinguish a blaze on El Camino Real near James Ave. and at 2:40 p.m. to another fire at Maple St. and Southern Pacific Co. tracks.

First Grass Fires Halted by Department

Belmont Council Asks Culvert Bids

Bids for a culvert to be built on the north end of the site of the proposed city hall were asked for Monday night by the Belmont City Council at its regular monthly meeting in the council chambers.

Funds for the erection and furnishing of the city hall, which is to be built on a city-owned lot on the east side of Fifth Ave. between O'Neill St. and Broadway, were obtained by the passage of a \$50,000 bond issue recently. How the city will pay for the construction of the culvert was explained by Mayor James P. Furlong Jr.

"During the war we set up a sinking fund to take care of certain postwar projects such as this," the mayor said, "and the cost of the culvert will come out of this fund."

Annexation of Home View tract into the city of Belmont was unanimously approved by the council. Home View tract, between El Camino Real and Bayshore Hwy., when completed will provide 200 homes for veterans and their families.

Underpass Survey Drawings Readied

Tentative drawings showing the effects of underpasses of Southern Pacific Co. tracks at Jefferson Ave. and Main St., are in the process of being completed by the railroad and the California Division of Highways, John Ryan, Redwood City underpass committee chairman, said this week.

Ryan said that the committee is attempting to determine which of eight crossings would be the best one at which to construct an underpass. Assistance of the railroad and the highway division, he continued, has been enlisted in the project.

Maps now under construction are being drawn solely with an aim of determining what the effects of such underpasses would be.

Ryan said that J. B. Dawson, Southern Pacific division engineer, had declared that Redwood City had the second most difficult underpass problem he had ever seen. The railroad, he said, has evidenced a desire to help the city on any such project.

Crossings where the underpass may be situated are at Main St., Jefferson Ave., between Broadway and Jefferson, between Broadway and Brewster Ave., at Broadway, Rogers St., Hopkins Ave., and at Brewster Ave. The Broadway crossing, Ryan concluded, appears almost impossible for the site of an underpass.

Army Releases County Cow Palace

The "Cow Palace" at the San Francisco-San Mateo County line near Bayshore Hwy. was released by the army this week and preparations are under way for a livestock exhibition and horse show there this fall.

Norton R. Tucker, president of the State 1-A Dist. Agriculture Assn., said the fall showing would be from Nov. 16 to 24. The war interrupted the planned series of exhibitions, horse shows and rodeos after one showing.

The building was used during the war as a staging base and later as a motor transport repair center. Reconstruction of north and south barns will be necessary before the fall show. The arena and the 10,400 seats were not disturbed by the army.
